THINKING OUT LOUD

By H. M. L.

Elliott Roosevelt is home from Moscow with a scoop, just published in the magazine, Look. There will come a time we hope, when what the Roosevelt boys say and do will no longer be a scoop. At present they under the aegis of a great name. The scoop, an interview with Stalin, is itself becoming a trifle shop worn. Stalin, as the leader of a world revolution, is talking too much. What he has to say, too often, has nothing to do with what he does.

Elliott Roosevelt is the lad, we recall, whose big mastiff, had the right of way on a government plane the war in time and displaced an American sailor. He is also the glib lad who talked a capitalist out of $100,000, and when hard put to it, paid back $4,000. He undoubtedly was given an interview with Stalin because he is his father's son, and Stalin thought it a good opportunity to spread propaganda in the U. S. A.

The propaganda amounts to this: Stalin doesn't think there is a prospect of war because there is nothing really worth fighting for at the moment and the peoples of the world are good and sick of war. He says ntohing about the wars the communists of Greece, China and Indo-China are presently waging..

His words are meant to assure the peoples of the U. S. A. that there is no prospect of war on the horizon among the big powers. China, one of the big powers, as everyone knows, is only a make believe big power, so far as any authority outside China is concerned. France is so nearly communistic at the moment that it no longer counts as a counterbalance against, revolution of the proletariat, which Russia is industriously pursuing. So that leaves the United States and Merry Old England to oppose the march of the communistic revolution around the globe.

As we have pointed out in this column many times, every despot in every period of history has acted on the principle that the end justifies the means. Lenin endorsed this principle and acted on it and Stalin has endorsed Lenin many times himself. In peace or war the revolution must go on, and does, as witness the activities of Greek, Chinese, French, Polish and Yugo Slavian peoples. A minority, organized and often armed, subjugates the majority by using the very tools intended to insure all people of liberty, or by force if the occasion indicates it can be effective.

Fascism does not stand at the opposite pole from communism, both systems ar totalitarian, in that a small group exacts obedience and wrings labor from millions of their fellow men. In the case of Germany, Hitler was the head of small rgoup, very small, some 25 intimates, who advised him and carried out his orders. In practice his system was essentially no different from that of the political bureau of some seven or eight men who surround Stalin and hand down decrees regulating the lives of 180 millions of their fellow Russians. There was this difference, however, Hitler sought to aggrandize the German people and make them the earth's masters, Stalin is not so particular, He is fighting to establish on earth the rule of the proletariat. But don't forget for a moment that once established it will be a Russian rule, which so far as Anglo Saxons are concerned, is not one whit better that that proposed by the late Hitler. To achieve the goal both used chicane in diplomacy abroad and blood purges at home.

Our constitution especially protects minorities. That is why we have a communist party in the U. S. A. They work under the protection of the constitution which they propose to overthrow any time circumstances seem propitious.

Our chief defense must be and is the education of the American people to the horrors of communism, to point out continually that so far as individual liberty, economic freedom and social progress is concerned, there can be no compromise with communism or fascism which, after all is only a variation of the despotism which eventually heads both systems.

KIDNAP CHARGE AGAINST O'DEA, GRIFFITHS DISMISSED, ASSAULT AND BATTERY STILL STANDS

NEVADA CITY: Charges of kidnaping against Thomas O'Dea and George Griffiths were dismissed Tuesday morning when they appeared for arraignment before Judge James Snell. The motion to dismiss was made by District Attorney Ward Sheldon, who stated that on reading over the transcript testimony at the preliminary hearing he concluded the charge was unjustified.

The charge of assault and battery, a misdemeanor still stands against the two. Both were discharged from custody. O'Dea and Griffiths were accused of beating George Dragolich, business agent of the Culinary Workers Union in his room in the Bret Harte Inn, and forcing him to accompany them to the Valley Grill on Mill Street where he was ordered to dismiss the picket. The picket called the police, but at that time Dragolich refused to sign a complaint, saying he would consult with his attorney first.

DR. HIRSCH INSTALLED AS PRESIDENT OF GRASS VALLEY CHAMBER OF COMMERCE

GRASS VALLEY: Dr. Daniel L. Hirsch was formally installed as president of the Grass Valley Chamber of Commerce at a dinner in Bret Harte Inn Tuesday night. The enthusiastic meeting was attended by eighty members and their guests.

Retiring president Wesley B. Donenwirth, opened the meeting and turned the gavel over to William Stinson, director. Fred Jacobson, of the Sacramento Chamber of Commerce and Secretary-Treasurer of the Secretary-Managers Association, spoke, as did Earl Reynolds, Assistant Western Regional Manager of the United States Chamber of Commerce, and Roy Deary, President of the Sacramento Chamber of Commerce.

Jacobson's address was brief. He described his impressions of Grass Valley and of the Chamber of Commerce Executive Manager, Ray J. Kronemeyer, in glowing terms.

Roy Deary, Sacramento chamber president, said, in part, "We are working on our Centennial celebration, which will be held in the years 1949 and 1950, also celebrated in your community here. We have hopes and plans made to work with the numerous surrounding counties."

"It would be great to come here and work with you if you see fit to have us help. The coordinating plan will be very beneficial for the surrounding counties, as well as for Sacramento . . ."

Deary concluded by praising the annual report of the Grass Valley chamber.

Earl Reynolds, United States chamber man, compared elected new officers and directors to substitutions on a football team. The players on the bench, he said, are rooting for the new group as energetically as they can.

"Where are you folks going to be when community work is to be done? Will you be willing to help carry out the plans of your new president? If you work for a man for heaven's sake, work FOR him speak well of him."

"I think this rule applies to any community. If Grass Valley provides you with the means of your livelihood, then speak well of it. Leadership is important. You have selected this group of 25 men to be your leaders for next year . . . ."

"I see by your letterhead that this is the oldest Chamber of Commerce in California. You should be very proud of that."

ANNUAL REPORT

The annual report of the chamber of commerce, which drew so much praise from visiting executives, detailed the work and accomplishments of the group during 1946. A comparison is made possible between the plans which were laid down at the beginning of the year, and the actual work completed.

A remarkable batting average was secured by the organization in that, of thirty-six projects scheduled at the beginning of the year, almost all were accomplished, and progress was secured in every field of effort.

ASSESSMENT WORK ON MINE CLAIMS TO BEGIN

WASHINGTON: As President Truman has proclaimed the cessation of hostilities, it will be necessary to resume annual assessment work on unpatented mining claims for the year beginning July 1, 1947, according to word received by Rep. Clair Engle from the Bureau of Land Management.

Under an act of May 3, 1943, assessment work on claims was suspended until noon on the first day of July after cessation of hostilities. Although claim owners were not required to perform assessment work under the moratorium they were required to file each year a notice of their desire to hold heir claims.

In reference to the president's proclamation, the Bureau of Land Management has addised Engle. "In our opinion if a notice of the desire to hold a mining claim is filed on or prior to noon July 1, 1947, the assessment work need not be done for the present assessment year ending at that time. Annual assessment work will be necessary for the year ending noon July 1, 1948."

Sales Pleads Not Guilty to Kidnaping and Escape Charges

NEVADA CITY: Walter H. Sales, arraigned in the superior court yesterday on a charge of escaping from the county jail, pleaded not guilty through his attorney Frank G. Finnegan. Sales had pleaded not guilty to a kidnaping charge on Tuesday.

Sales was a trusty serving term in jail on a charge of violating terms of probation. While being accorded the liberty given trusties, he engaged a taxi from Grass Valley, went to Truckee and, according to the information filed by the district attorney, flourished a revolver, intimidating bystanders, and forced Mrs. Henry Giovanonni to accompany him in the taxi.

The driver, insisting he must have his car serviced before proceeding to Reno, as ordered, took the revolver away from Sales at the service station and turned his passenger over to Truckee peace officers. It developed later that the revolver was stolen from the sheriff's office. A charge of kidnaping Mrs. Giovannoni several months ago, was dismissed at a hearing in Truckee.

The society is made up of citizens whose entire interest in the group is to save for posterity relics of one of the greatest periods in the htsory of our nation—the iscovery of gold. Dues are a dollar a year.

IT'S YOUR TIME

The average person is quite time conscious at this period of the year. Frequently he resolves to make better use of his time and to keep more regular hours in the 12 months ahead. Very good.

But have you ever wondered how Mr. Average Man has spent his time up to now? Let's figure it out. They say that life begins at 40 and 40 will do as an average age for our Mr. A. M.

If he has made it a point to get 8 hours sleep every night (as he most likely hasn't) then he has spent about 13 1-2 of his 40 years in bed. Restful, isn't it? Allowing 20 minutes for breakfast, half an hour for lunch and 40 minutes for dinner he has had his feet under the table and his napkin under his chin for 2 1-2 years. Well, he shouldn't be hungry.

Now, if he spends 15 minutes each morning shaving and if he started to shave at 15 years of age he has been whacking the whiskers off the man he sees in the mirror for about three months. Maybe he should have grown a beard. If he has taken in on the average of one movie a week and if that took about 3 hours each time, he has spent 8 or 9 months "in the dark."

And if he has been working half his life and commutes to his job—let's say it takes 2 hours a day for this, five days a week—he has been mauled, pushed, elbowed and stepped on for about 14 months of his life in public conveyances. Ow! that was my foot!

Finally, if he has worked 40 hours a week for 20 years that's equal to having his nose against the grindstone for 4 1-2 years solid. Page Mr. Durante.

All this adds up to approximately 22 years. Aside from the additional time he has spent taking showers, arguing with his wife, mowing the lawn and going to church, where has he been the rest of his life? Contributed.

Willie Goes to School at 23

Everybody's joshing Willie Wells about going back to school. They remember when Willie would hide out in the woodshed—scared to bring his report card home to Pa.

But under the G.I. Bill of Rights, Willie (who has a wife and baby) is getting a free education at the Agricultural College. And Uncle Sam is giving him a fine report: "Deportment, excellent; Progress, above average."

That goes for all those undergraduate veterans. Like Willie, they appreciate an education more than ever now. They're industrious and well-behaved—their favorite beverage is milk, or a temperate glass of beer. For them the "three R's" seem to mean: Responsibility, Resourcefulness, Restraint.

From where I sit, cynical folks who thought veterans wouldn't want to return to school—wouldn't stick to steady habits of work and moderation—have their answer in "undergraduates" like Willie.

WITH YOUR ASSEMBLYMAN SCOOP THURMAN AT THE STATE CAPITOL

The writer was fortunate last week in receiving five committee assignments, two more than the three allowed under the rules of the lower house. Speaker Sam Collins granted our request for the four committee memberships which we asked for and in addition gave us the chairmanship of municipal and county government committee.

Committee chairmanships usually go to the members having seniority so the writer with five terms to his credit was one of the twenty five members who received chairmanships. Seventeen chairmanships went to Republicans and eight to Democrats. This demonstrates that the lower house operates somewhat on a non-partisan basis. In congress all chairmanships go to members of the party in power.

The committee on which we hold memberships are of vital importance to the 6th assembly district. They are in edition to the municipal and county government committee the following:

Conservation and planning. This committee includes the former roads and highways committee and much of the comtemplated highway legislation will be heard in this committee. All forestry legislation will also be heard in this committee. It is composed of fifteen members.

Manufacturing, Oil and Mining industry. All mining legislation is heard before committee and with so many gold mining operations in the area it is of vital importance to a legislator representing this district. Thirteen members comprise the committee.

Fish and Game Committee. With all of ten counties of the district being in the great recreational area of California this committee is also of vital importance to the district. Eleven members comprise this committee.

Ways and Means Committee. All appropriatios bills as well as the state budget which includes funds for the operation of the various departments of the state including forestry, fish and game, mines and mining, are heard in this committee. It is one of the three most important committees of the lower house and one of vital importane to the district. Twenty four members compose this committee. Ten of the members of this committee include members who have not served on it heretofore while the other 14 were members of the committee last session and several have been on the committee for several sessions including chairman Al Wollenberk and the writer who have served on it since the economy bloc days of 1940.

With memberships on the above committees I believe that I am in a better position to serve the people of the large ten county distric than I otherwise would bt. In fact, I have served on most of them since my first term in 1939.

STORM

Old Man Weather can be mighty tough on telephone lines, especially in the High Sierras and Cascades where snow often piles high enough to cover poles completely and ice builds up several inches thick on wires. But when a major break occurs, crews of telephone workers swing into action fast . . . and with some rather ingenious equipment.

A snoplane like this one, powered by an airplane motor and propellor, can carry two men and considerable material on trails which would be impossible for trucks. Other expert mountaineer workmen speed to the break on snowshoes and skis. As a special safeguard against sudden storms, well-equipped shelter huts have been built along mountain lines.

Enough men rush to the job to keep repair work going without stop . . . in the meantime, calls are immediately rerouted whenever possible. And sooner than you might imagine, the damaged lines are in use again. For here, as in everything we're now doing to grow with the West, telephone people work with a splendid spirit of service and teamwork . . . and always with *you* in mind.

An ever-improving telephone service *at the least cost consistent with good wages and working conditions for our employees and a reasonable return to the thousands of people who have invested in the business.*

NEVADA CITY LONG AGO

FLOY MARGARET REYNOLDS

20 YEARS AGO

While digging a bed for roses in his front yard, Frank Dillon dug up a diamond ring. Thinking it was just a toy he laid it aside but later cleaned it up and took it to a jewele- and found it was worth $150. The ring when found was firmly imbedded two feet deep in the ground and had probably been buried there for many years.

The Oakland school at Gold Flat had an enrollment of 58 pupils. The following pupils were neither absent nor tardy for the month of December: Thomas Wasley, Leroy Hoskins, Wendall Parsons, Fay Murphy, Donald Macari, Edith Clemo, Gus Wasley, Violetta Ford, Colin Boreham, Ralph Watters, Marian Temby, Raymond Leonard, Eleanor Leonard, Sammy Hooper, Jack Clark, Bobby Butler, Charles Alford, Ray Steger, Ruth Reed, Hershel Lotz, Edgar Phillips, Marshall Webb and Arthur Poirier.

The installation of officers of Champion Circle No. 325, Neighbors of Woodcraft was held with Josie Martin, Past Guardian Neighbor as installing officer. The following were installed: Addie Browning, G. N., Blanche Hatch, Advisor; Jane Baker, clerk; Theresa McLeon, banker; Minnie Young, attendant; Julia Fleming, C. of G.; Addie O'Connor, L. S.; Cassie Flynn, O. S.; Emma Danforth, musician; Ed Baker, Esther Tremaine, Maria Ninnis, Managers; Annie Browning, correspondent and Mamie Flynn, flag bearer.

50 YEARS AGO

Owing to the prevalence of measles and diphtheria there was quite a falling off in school attendance and it was considered likely that the schools would be closed. Principal O'Neill announced 293 absentees in one day.

At a meeting of the fire department at which Chief Engineer Hanley presided and L. S. Calkins was chosen to act as secretary, a motion to install the Gamewell Fire Alarm system was carried by a vote of 17, 11. It was proposed to install one bell striker, two indicators and eight boxes at strategic places about town at a cost of $1400 to be paid by the fire fund of the city.

The Nevada City Narrow Gauge Railroad was to run an excursion train via Colfax for the Ice Carnival at Truckee. Round trip fare to be $6.05 from Nevada City, the price of the ticket included the attractions of the carnival. Admittance to the Ice Palace, the skating rink with free use of skates, and twelve rides down the toboggan slide.

The Wizard Oil Company closed a week's engagement at the theatre Daniel McCauley won the large set of silverware offered as a prize to purchasers of Wizard Oil. The diamond ring given as a general prize, was won by Harry Rowe.

The pumping rig at the Brunswick Mine broke down and the Miners Foundry was working night and day to repair the damage. Meantime the mine was filling with water and underground work had been suspended.

75 YEARS AGO

Messrs. Smith and Mills were removing all of their lumber from the yard on Sacramento Street to their new yard near the Half-Mile House.

Hon. T. G. Phelps, collector of port in San Francisco notified Chas. C. Leavitt of this city that he had appointed him to a position in the custom house. Nevada City was well represented in the state and federal offices.

Finest grade apples were selling for three cents a pound.

Two mails were received from Colfax, the first in many days owing to the washed out roads and bridges and the swollen rivers. The stages made the run by the lower road, fording Bear River. Rainfall for the season to date was 59.25 inches.

Con. Sargent introduced bills in congress to promote the development of mining and to dedicate the public lands of California to homestead and pre-emption settlement.

Paul in Athens and Corinth — ILLUSTRATED SUNDAY SCHOOL LESSON — By Alfred J. Buescher

Scripture—Acts 17:15-28a; I Corinthians 1:22-31; 3:1-15; 15.

In Athens Paul disputed with the Jews in the synagogue and with the "devout persons," and in the market daily with them that met with him.

Paul stood up in the midst of Mars' hill and said, "Ye men of Athens, I perceive that in all things ye are too superstitious."

Paul left Athens and went to Corinth where he lived with a Jew, Aquila and his wife, Priscilla, who were tentmakers as Paul was.

Paul was haled before the deputy, Gallio, by the Jews, who accused him, but Gallio refused to judge him.

MEMORY VERSE—Exodus 20:3.

IVA FOREMAN MARRIED TO WILLIAM MAGUIRE

NEVADA CITY, Miss Iva Foreman, daughter of Mr. and Mrs. H. S. Foreman of this city, and William Maguire, son of Mr. and Mrs. H. L. Maguire of San Leandro, were married in the Trinity Episcopal Church last Sunday afternoon, January 19th by the rector, Rev. Angus Miller.

The bride wore a white satin gown made with a sweetheart neck line, long fitted sleeves and a long train. She wore a fingertip veil edged with Chantilly lace and tule halo studded with tiny crystal beads. She carried a shower bouquet of white carnations and orchids. Her father gave her in marriage..

The bride was attended by her sister Mrs. Doreen Judd, matron of honor, attired in a pale pink accordion pleated silk gown, with braided coronet headdress and four bridesmaids.

The bridesmaids were Miss Dorothy Anderson, Miss Jean Riley, Miss Arlene Bremer and Miss Elaine Glade. They wore identical gowns of pink or pale green, with long bouffante skirts of marquisette, fitted bodices, short veils and long tulle mittens. They carried bouquets of violets and white carnations with white satin streamers. Little Pamela McQuay, cousin of the bride, was flower girl.

Best man was Stanley Foreman, brother of the bride, and ushers were Cecil McQuay, Gordon Foreman, Jimmy McMahan and Albert Cubillas.

Before and during the ceremony Mrs. Carl Libbey, accompanied by Mrs. Gordon Vance on the organ, sang Because and Oh, Perfect Love.

Following the ceremony a reception was held in the parish hall. The bride's table and the buffet tables were decorated with white candelabra, blue iris and pink carnations. A lovely wedding cake and delightful refreshments were served the many relatives and friends who attended.

The happy couple are spending their honeymoon in Los Angeles. On their return they will make their home in Alameda. The groom, recently discharged from the U. S. Navy, expects to attend San Francisco junior college.

After the church ceremony and reception, a buffet dinner for fifty was served at the home of Mrs. Clara Scarfe of Boulder Street. Relatives, out of town guests, and a few close friends attended.

Mrs. Harrlen Maguire and Mrs. John McQuay, aunts of the bride and groom poured at the reception.

Veterans' News

Former GI Janes not only are eligible for all the benefits granted their male counterparts, but they are "one up" on their khaki clad and seagoing brothers.

Women veterans, unlike men, may receive private hospitalization for non-service connected disabilities when VA facilities are not available. This is a privilege given to male veterans only when they are suffering from disabilities incurred or aggravated by their service in the armed forces.

This additional benefit was given to women veterans by an executive order in 1933, when existing VA hospitals did not have adequate accomodations for the women who served during World War I.

Most VA hospitals now have special wards set aside for the care of women, but the privilege of private hospitalization may still be authorized when necessary.

Veterans administration reports that 340 women veterans were hospitalized in California hospitals last November 30. Of the total, only 16 were in private hospitals, and 85 were in the VO dormiliary home in Los Angeles. World War II veterans slightly outnumbered veterans of World War I, 172 to 168.

Q: Is it true that apprenticeship courses are limited to a maximum of two years?

A: No. Regular apprenticeship courses are not limited by law. The limitation as to length of courses applies to on the job training other than apprenticeship.

Q: If I attend an evening college course will I be tntitled to full subsistence allowance under the GI Bill?

A: Your allowance will depend on the number of hours you take in school and the amount of money you earn in the day time. In order to get the full allowance you must take a full 12 semester hour course in school and earn less than $110 a month in outside work.

Q: I recently obtained a GI loan which VA guaranteed for $2500.. I have since lost my job and would like to know if I am also eligible for readjustment allowance until I find another job to my liking?

A: Yes. The fact that you received a GI loan does not affect your eligibility for readjustment allowances.
